BUILT TO LAST WITH A 12-YEAR WARRANTY

MOVE BETTER. SIT BETTER. WORK BETTER. ENGINEERED FOR COMFORT IN MOTION.

The Evolve Series is designed to support the body in motion. Encouraging healthy alignment without restricting how you sit, reach, and work throughout the day.

A defined lumbar contour supports the natural curve of the spine, helping reduce strain and fatigue over time. With adjustable back heights in 2 different back sizes, each user can easily fine-tune where that support is felt, creating a more personal, responsive sit.

Add in upgrades like Air Thoracic or Air Lumbar, and find perfect ergonomic comfort in a mesh chair that no other manufacturer can match.

Clean, breathable, and highly adaptable, the Evolve Series delivers a consistent ergonomic experience across an entire space. Helping people sit better, feel better, and work longer with less fatigue.

A GOOD FIT FOR EVERY OFFICE AND EVERY BODY
